

INDICATIONS

Home Care

FARMASOL is a piston compressor nebulizer for aerosoltherapy. Designed for home-care, it also finds applications for intensive use due to the powerful compressor approved for non-stop operation. Easy to use and carry thanks to its compact size and bag for storage of compressor, accessories and medications. The inner geometry of the housing provide a reduced noise level which combined with the HI-FLO jet nebulizer delivering 0,50 ml/min make therapies fast and efficient. HI-FLO also passed compatibility test with the most prescribed active principles, such as Ambroxol, Salbutamol, Beclometasone Dipropionate, Acetylcysteine and Budesonide.
